PLEASE CHECK THE APPROPRIATE BLOCK BELOW:

AO# 499-08-1367 14 Advanced Planning Briefing for Industry, May 17-18, 1999
☐ One copies are being forwarded. Indicate whether Statement A, B, C, D, E, F, or X applies.

DISTRIBUTION STATEMENT A:

APPROVED FOR PUBLIC RELEASE: DISTRIBUTION IS UNLIMITED

DISTRIBUTION STATEMENT B:

DISTRIBUTION AUTHORIZED TO U.S. GOVERNMENT AGENCIES ONLY; (Indicate Reason and Date). OTHER REQUESTS FOR THIS DOCUMENT SHALL BE REFERRED TO (Indicate Controlling DoD Office).

DISTRIBUTION STATEMENT C:

DISTRIBUTION AUTHORIZED TO U.S. GOVERNMENT AGENCIES AND THEIR CONTRACTORS; (Indicate Reason and Date). OTHER REQUESTS FOR THIS DOCUMENT SHALL BE REFERRED TO (Indicate Controlling DoD Office).

DISTRIBUTION STATEMENT D:

DISTRIBUTION AUTHORIZED TO DoD AND U.S. DoD CONTRACTORS ONLY; (Indicate Reason and Date). OTHER REQUESTS SHALL BE REFERRED TO (Indicate Controlling DoD Office).

DISTRIBUTION STATEMENT E:

DISTRIBUTION AUTHORIZED TO DoD COMPONENTS ONLY; (Indicate Reason and Date). OTHER REQUESTS SHALL BE REFERRED TO (Indicate Controlling DoD Office).

DISTRIBUTION STATEMENT F:

FURTHER DISSEMINATION ONLY AS DIRECTED BY (Indicate Controlling DoD Office and Date) or HIGHER DoD AUTHORITY.

DISTRIBUTION STATEMENT X:

DISTRIBUTION AUTHORIZED TO U.S. GOVERNMENT AGENCIES AND PRIVATE INDIVIDUALS OR ENTERPRISES ELIGIBLE TO OBTAIN EXPORT-CONTROLLED TECHNICAL DATA IN ACCORDANCE WITH DoD DIRECTIVE 5230.25, WITHHOLDING OF UNCLASSIFIED TECHNICAL DATA FROM PUBLIC DISCLOSURE, 6 Nov 1984 (Indicate date of determination). CONTROLLING DoD OFFICE IS (Indicate Controlling DoD Office).

This document was previously forwarded to DTIC on _____ (date) and the AD number is _____.

In accordance with provisions of DoD instructions, the document requested is not supplied because:

It will be published at a later date. (Enter approximate date, if known).

Other. (Give Reason)

DoD Directive 5230.24, "Distribution Statements on Technical Documents," 18 Mar 87, contains seven distribution statements, as described briefly above. Technical Documents must be assigned distribution statements.

DEPARTMENT OF THE ARMY
HEADQUARTERS, U.S. ARMY COMMUNICATIONS-ELECTRONICS COMMAND
AND FORT MONMOUTH
FORT MONMOUTH, NEW JERSEY 07703-5000

Office of the Commanding General

Ladies and Gentlemen:

On behalf of the Army C4IEW and Sensors Team, I am pleased to present these proceedings of the 1999 Advance Planning Briefing for Industry (APBI) entitled "Partnering with Industry to Achieve Information Dominance for Force XXI and the Army After Next." The objective of this publication is to provide industry with a comprehensive overview of our research and development programs, sustainment efforts and corresponding contract opportunities available to industry within the next five years.

The Army C4IEW and Sensors Team is dedicated to providing the most sophisticated, technologically superior equipment for our forces in the 21st century. Partnering with industry is essential to maintaining the technological edge. Equipping our forces with new and advanced technologies will greatly enhance their capabilities to execute their missions successfully.

I welcome your participation in our APBI program and thank you for your continued support to our warfighters.

Sincerely,

Robert L. Nabors
Major General, U.S. Army
Commanding

NOTICE

This publication contains the briefings presented during this Advance Planning Briefing for Industry (APBI). Following the APBI, you may obtain a Proceedings Book in either of the following ways:

- On the World Wide Web at
www.monmouth.army.mil/cecom/ac/hq/apbi
or**
- For a minimal fee by contacting the Defense Technical Information Center (DTIC). The telephone number is: (800) 225-3842.**

We hope that the above publication proves beneficial to your long-range planning efforts. If you have any additional questions and/or suggestions, please contact the Planning, Analysis and Integration Directorate, AMSEL-PE-OD, ATTN: Denise Ellison, (732) 532-8674.

WELCOMING REMARKS

MG ROBERT L. NABORS

**COMMANDING GENERAL
CECOM**

MAJOR GENERAL ROBERT L. NABORS

COMMANDING GENERAL

United States Army

Communications-Electronics Command

And Fort Monmouth, New Jersey

Major General Robert L. Nabors has been the Commander of the Communications-Electronics Command and Fort Monmouth since September 1, 1998.

MG Nabors was born in Boston, Massachusetts, and grew up in Lackawanna, New York. He holds a Bachelor of Science degree in Systems Engineering from the University of Arizona; a Master of Science degree in Systems Management from the University of Southern California; and served as a Senior Fellow in the National Security Affairs Program at Harvard University. He is also a graduate of the Senior Officials in National Security Program at Harvard University. His military schooling includes the Signal Officer Candidate School, the Signal Officer Basic and Advanced Courses and the Armed Forces Staff College.

MG Nabors' initial duty assignment was with the 67th Signal Battalion at Fort Riley, Kansas. After a tour in Vietnam, MG Nabors served at Fort Dix, New Jersey; Aberdeen Proving Ground, Maryland; and Worms, Germany. In November 1979, MG Nabors was selected as Aide-de-Camp for the Commanding General, VII Corps. MG Nabors was attached to the J-6 Staff of the Combined Forces Command/United States Forces, Korea and subsequently, served as the S-2/3 of the 41st Signal Battalion. In December 1983, he was assigned to the Office of the Director of Plans, Programs, and Policy at the United States Readiness Command, and was then selected to command the 509th Signal Battalion in Italy.

MG Nabors served as Special Assistant to the U.S. Army's Director of Information Systems for Command, Control, Communications, and Computers (DISC4). He was also Chief, Integration Division, Architecture Directorate. Prior to assuming command of the 2nd Signal Brigade in December 1990, MG Nabors served as Deputy Commander, White House Communications Agency. MG Nabors served as the Executive Officer for the DISC4 before his assignment as Director, Single Agency Manager for Pentagon Information Technology Services. MG Nabors assumed command of

5th Signal Command on November 22, 1995.

MG Nabors' awards and decorations include the Defense Superior Service Medal; Legion of Merit with four Oak Leaf Clusters; the Bronze Star Medal; Meritorious Service Medal with four Oak Leaf Clusters; the Joint Service Commendation Medal; the Army Commendation Medal with four Oak Leaf Clusters; the Department of the Army Staff Identification Badge; the Joint Meritorious Unit Award; and the Presidential Support Badge. MG Nabors is a member of the American Mensa Society.

MG Nabors and his wife, Valerie, have three adult children: Robert, Richard and Jonathan.

NOTES

MR. EDWARD G. ELGART
DIRECTOR
CECOM Acquisition Center
US Army Communications-Electronics Command
Fort Monmouth, New Jersey

Edward G. Elgart is the Director of the CECOM Acquisition Center, US Army Communications-Electronics Command (CECOM), Fort Monmouth, New Jersey, Fort Huachuca, Arizona, and Alexandria, Virginia. He also serves as the Principal Assistant Responsible for Contracting for that activity, Tobyhanna Army Depot, Army Signal Command, 5th Signal Command and TAO. He is responsible for the acquisition and support of Army and joint command, control, communications, computers, intelligence, electronic warfare, sensors and information management systems, estimated at \$4 billion annually.

Mr. Elgart served as the Acting Deputy Assistant Secretary of the Army for Procurement from May 1997-May 1998. In that capacity he was responsible for oversight and policy for all Army procurements, acquisition reform, and advocacy for the industrial base, as well as the proponent for the Army contracting career field. He also served during that time as the Competition Advocate General, the Commercial Items/NDI Advocate, Chairman of the Contract Adjustment Board, and the Task Order Ombudsman for the Army. Notable achievements during his tenure included execution of a \$31 billion procurement program, savings of \$16 billion in weapon systems life cycle costs, restructuring the professional and educational requirements for the contracting career field, and designing the architecture and fielding plan for the achievement of paperless contracting throughout the Army.

From 1985-1989, Mr. Elgart served in a variety of management positions with the Defense Logistics Agency, first at DCASPRO Teledyne CAE, then at DCASMA Detroit, and culminating as the Director of Contract Management for the Defense Contract Administration Services Region Chicago. In that position, he was responsible for the administration of 18,000 defense contracts valued in excess of \$19 billion.

Mr. Elgart began his career in government service in 1976 as a Contract Specialist intern, procuring tactical radio equipment for the Army Electronics Command. In 1981, as the Chief,

Readiness Policy Branch, he led a task force to reduce procurement administrative lead time within the command. During his tenure as a Contracting Officer from 1983-1985, he was responsible for the negotiation and award of the \$4.3 billion contract for the Mobile Subscriber Equipment battlefield communications system.

Mr. Elgart entered the Senior Executive Service in June 1989, and is a 1996 recipient of the Presidential Meritorious Executive Rank Award. He is a Fellow of the National Contract Management Association and a previous Fort Monmouth Chapter President and Executive Director. His awards and decorations include the Meritorious Civilian Service Medal, the Honorable Order of Saint Barbara, and the Army Staff Identification Badge. He was the first recipient of the Acquisition Career Management Advocate of the Year award. Mr. Elgart holds membership in numerous professional associations and is a member of the Army Acquisition Corps and the American Mensa Society.

Mr. Elgart is a graduate of the Federal Executive Institute and the Command and General Staff Officer Course. He is also a graduate of the Brookings Institution-University of North Carolina Leadership 2000 program and the Center for Creative Leadership. He has a Bachelor's Degree in Biology from Kean College and a Masters Degree in Business Administration from Fairleigh Dickinson University.

He is married to the former Mary Ellen Reed of Deal, New Jersey. They have two children; Lindsay and Stephen.

NOTES

MR. ANTHONY A. LaPLACA
Director, CECOM Logistics and Readiness Center
Fort Monmouth, New Jersey

Mr. Anthony LaPlaca was appointed as the Director of CECOM's Logistics and Readiness Center (CECOM LRC) in August 1996.

As the Director of the CECOM LRC, he has direct responsibility for a Center comprised of seven directorates and a Center Staff. The LRC is the Weapons Systems Manager, National Inventory Control Point (NICP) and National Maintenance Point (NMP) for over 67,000 items. The Center's budget is over \$800 million. Of that, over \$520 million is for end item and spare parts hardware costs and \$94 million for depot level maintenance.

The Center's has a diverse and worldwide mission. A portion of that mission includes logistics planning, spares requirements determination, production engineering, maintenance engineering, equipment fielding, new equipment training, production quality, maintenance planning, depot level repair workloading, field technical assistance, foreign military sales, and communications-security equipment.

Prior to his appointment as the CECOM LRC Director, Mr. LaPlaca held numerous Center leadership positions to include Center Deputy Director, Center Associate Director, Director for Logistics and Maintenance, and Director for Systems Management. He came to the Center in 1987 with the inception of the CECOM LRC.

Prior to coming to the CECOM LRC, Mr. LaPlaca developed an extensive background in shelterized communications and electronic systems, radar, production engineering, material change, weapons systems life cycle management and logistics.

Mr. LaPlaca received his Bachelor of Science Degree from Newark College of Engineering, now the New Jersey Institute of Technology, and a Master of Science in Management Science from Fairleigh Dickinson University. He was appointed to the Acquisition Corps in 1992 and is certified in the three acquisition fields of Program Management, Acquisition Logistics and Systems, Planning, Research, Development and Engineering. He has received numerous awards and recognitions.

Mr. LaPlaca and his wife Bobbie have three children, Michael, Kristen and Jamie, a daughter-in-law, Nancy, and two grandchildren, Tyler and Ashley.

Logistics and Readiness Center Contract Opportunities

Mr. Anthony LaPlaca, Director

CECOM Bottom Line: The Soldier

FLEXIBLE LONG TERM CONTRACTS (FLTCS)

CECOM Bottom Line: The Soldier

FLEXIBLE LONG TERM CONTRACTS (FLTCs)

- FLTCs are range quantity contracts of three or more years covering the production and/or repair of one or more spare parts
- CECOM's preferred method of supporting spare parts
- 71% of spares purchases in FY 98 on FLTC
- 82% of spares purchases in FY 99 on FLTC
- Percentage will be increasing in FY 00-01

CECOM Bottom Line: The Soldier

Long-Term Contract Definitions

Indefinite Delivery Indefinite Quantity (IDIQ) Contract: A vehicle that provides for an indefinite quantity, within stated limits, of specific supplies or services during a fixed period, with deliveries to be scheduled by placing orders with the contractor. The Government is obligated to a stated minimum. Funds other than the minimum are obligated at the time of subsequent orders.

Requirements Contract: An instrument that provides for filling all purchase requirements of designated Government activities for specific supplies or services during a specified contract period with deliveries to be scheduled by placing orders with the contractor. No money is obligated at award; funds are obligated when delivery orders are written. There is no guaranteed minimum quantity.

CECOM Bottom Line: The Soldier

Spares for the AN/ALQ-144 Countermeasure Set

CECOM Bottom Line: The Soldier

Spares for the AN/ALQ-144 Countermeasure Set

- **SALIENT CHARACTERISTICS**
- Infrared Jammer
- Continuously operating, omni-directional, electrically fired infrared jammer
- Use to decoy or confuse threat IR missile systems
- Applicable Aircraft:
AH-1F, AH-64A/D, OH-58D,
EH-60A, UH-60A/L, MH-60K

CECOM Bottom Line: The Soldier

Spares for the AN/ALQ-144 Countermeasure Set

- **OBJECTIVE:** The acquisition will be split into two buys, both IDIQs. One buy will go to Small Business, the other portion will go full and open.
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$25M
- **KEY MILESTONES:** RFP: May 99
Award: Sep 99
- **TECHNICAL CONTACT:** Hae Rhee, 732-427-5178
- **ACQUISITION CONTACT:** Vernay Salas, 732-532-1257

CECOM Bottom Line: The Soldier

Spares for the AN/APR-39A(V) Radar Warning Receiver

CECOM Bottom Line: The Soldier

Spares for the AN/APR-39A(V) Radar Warning Receiver

- **SALIENT CHARACTERISTICS**
- Radar Warning Receiver
- Provides warning of radar directed air defense threat systems
- Upgraded version of the AN/APR-39(V) system
- Utilizes a digital processor, alphanumeric display and a synthetic voice to warn pilot
- Applicable Aircraft:
AH-1F, AH-64A/D, CH-47D, UH-60A/L,
UH-60Q (MEDEVAC), MH-60K, OH-58C&D

CECOM Bottom Line: The Soldier

Spares for the AN/APR-39A(V) Radar Warning Receiver

- **OBJECTIVE:** To recompetete the current spares contract
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$1M - \$20M
- **KEY MILESTONES:** RFP: Aug 99
Award: Dec 99
- **TECHNICAL CONTACT:** Skip Rummel, 732-427-5154
- **ACQUISITION CONTACT:** Linda McGarry, 732-427-1398

CECOM Bottom Line: The Soldier

Tube and Magnifier; p/o AN/VVS-2

CECOM Bottom Line: The Soldier

Tube and Magnifier; p/o AN/VVS-2

- **SALIENT CHARACTERISTICS**
- Located internally within the main housing assembly
- Amplifies the image output of the objective lens assembly
- Increases the image size from 25 to 47.6 millimeters
- Contains 2nd generation 25mm Image Intensifier tube and magnifier
- NSN: 5855-01-027-1554

CECOM Bottom Line: The Soldier

Tube and Magnifier; p/o AN/VVS-2

- **OBJECTIVE:** Acquisition of a minimum of 200 and a maximum of 4200 tube and magnifier assemblies. This is a spare parts production contract.
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$550K - \$11.6M
- **KEY MILESTONES:** RFP: Apr 99
Award: Aug 99
- **TECHNICAL CONTACT:** Barbara McKinney, 732-427-1006
- **ACQUISITION CONTACT:** Rachel Bogner, 732-532-1103

CECOM Bottom Line: The Soldier

Spares for AN/ARC-220 and AN/VRC-100 High Frequency Radios

AN/ARC-220

C-12436/URC

RT-1749/URC

AM-7531/URC

AN/VRC-100

CECOM Bottom Line: The Soldier

Spares for AN/ARC-220 and AN/VRC-100 High Frequency Radios

- **SALIENT CHARACTERISTICS**

- Provide Army aviators and ground troops with the ability to communicate at Non Line Of Sight (NLOS) distances or in mountainous terrain
- AN/ARC-220 is comprised of three LRUs:
 - Control Display Unit (CDU)
 - Receiver-Transmitter (RT)
 - Power Amplifier/Coupler (PAC)
- AN/VRC-100 has the same three LRUs which are housed in a metal casing along with a power supply

CECOM Bottom Line: The Soldier

Spares for AN/ARC-220 and AN/VRC-100 High Frequency Radios

- **OBJECTIVE:** Acquisition of component spares to support replenishment demands. Approximately 15 NSNs will be procured, includes both Line Replaceable Units and Shop Replaceable Units
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$2M - \$5M
- **KEY MILESTONES:** RFP: Jul 02
Award: Dec 02
- **TECHNICAL CONTACT:** Dan Corwin, 732-532-3722
- **ACQUISITION CONTACT:** Sharon Wilson, 732-532-4964

CECOM Bottom Line: The Soldier

Thermal Night Vision Circuit Card Assemblies

CECOM Bottom Line: The Soldier

Thermal Night Vision Circuit Card Assemblies

- **SALIENT CHARACTERISTICS**
- Circuit Cards have multiple applications, mostly low voltage and are used to drive the support first generation thermal imaging night vision equipments (Scanners, Light Emitting Diode Arrays and regulate voltages)

CECOM Bottom Line: The Soldier

Thermal Night Vision Circuit Card Assemblies

- **OBJECTIVE:** Acquisition of First Generation Thermal Night Vision Circuit Card Assemblies (6-8 NSNs)
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$3M
- **KEY MILESTONES:** RFP: Aug 99
Award: Oct 99
- **TECHNICAL CONTACT:** Ana Cardinale, 732-427-5821
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

Common Module Light Emitting Diode Arrays

CECOM Bottom Line: The Soldier

Common Module Light Emitting Diode Arrays

- **SALIENT CHARACTERISTICS**

- Thermal Imaging Night Vision systems have multiple applications
- Used in both land based and airborne applications
- Emit visible light as smaller diodes do, but they are arranged in array fashion (successive elements next to one another) they are sealed within a small 2X3 inch package
- NSNs: 5855-01-029-8733
5855-01-119-5869

CECOM Bottom Line: The Soldier

Common Module Light Emitting Diode Arrays

- **OBJECTIVE:** Acquisition of Light Emitting Diode Arrays for use in First Generation Thermal Imaging Night Vision systems.
- **CONTRACT TYPE:** IDIQ, 3-5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$5M
- **KEY MILESTONES:** RFP: Aug 99
Award: Nov 99
- **TECHNICAL CONTACT:** John Chiesa, 732-427-5804
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

UH60 Black Hawk CP2036/A Command Instrument Processor

CECOM Bottom Line: The Soldier

UH60 Black Hawk CP2036/A Command Instrument Processor

- **SALIENT CHARACTERISTICS**
- Automatic flight control system that receives primary flight information from these helicopter sets: automatic flight control system (barometric altitude, airspeed, and collective stick position), attitude indicating set (pitch and roll attitudes), compass set (magnetic heading), and radar altimeter (radar altitude)
- Navigational inputs are obtained from the civil navigation set and Doppler (or Doppler GPS) navigation set.
- NSN: 6610-01-280-9729

CECOM Bottom Line: The Soldier

UH60 Black Hawk CP2036/A Command Instrument Processor

- **OBJECTIVE:** Acquisition of component spares to support replenishment demands.
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$1M - \$7.5M
- **KEY MILESTONES:** RFP: Dec 00
Award: Apr 01
- **TECHNICAL CONTACT:** Dave Smith, 732- 532-4865
- **ACQUISITION CONTACT:** Vernay Salas, 732-532-1257

CECOM Bottom Line: The Soldier

AN/APD-13 Advanced Quicklook

CECOM Bottom Line: The Soldier

AN/APD-13 Advanced Quicklook

- **SALIENT CHARACTERISTICS**

- P/O AN/APD-13
- Provides the Electronic Intelligence Information (ELINT) for the Guardrail Common Sensor Systems

CECOM Bottom Line: The Soldier

AN/APD-13 Advanced Quicklook

- **OBJECTIVE:** Repair, Acquisition and Field Support.
Modernization through Spares and Value
Engineering Concepts
- **CONTRACT TYPE:** Requirements, 10 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$20M
- **KEY MILESTONES:** RFP: May 99
Award: Sep 99
- **TECHNICAL CONTACT:** Al Bader, 732-427-5646
- **ACQUISITION CONTACT:** Rachel Bogner, 732-532-1103

CECOM Bottom Line: The Soldier

AS-3900A antenna and component spares

CECOM Bottom Line: The Soldier

AS-3900A antenna and component spares

- **SALIENT CHARACTERISTICS**
 - Used with SINCGARS ground radios
 - Nine foot bi-pole fiberglass whip antenna with a lexan subassembly base
 - Used with wheeled vehicles and is center fed
 - Operates over 30-88 MHz range and has a frequency hopping capability
 - Range capability of approximately 22 miles in good weather

CECOM Bottom Line: The Soldier

AS-3900A antenna and component spares

- **OBJECTIVE:** Acquisition of Antenna and three component spares to support replenishment demands (4 NSNs)
- **CONTRACT TYPE:** IDIQ, 3 years
- **ESTIMATED VALUE (Min-Max):** \$8M - \$10M
- **KEY MILESTONES:** RFP: May 00
Award: Jul 00
- **TECHNICAL CONTACT:** Kellie Telson, 732-532-8840
- **ACQUISITION CONTACT:** Ed Schindel, 732-532-1532

CECOM Bottom Line: The Soldier

AS-3916 antenna and component spares

CECOM Bottom Line: The Soldier

AS-3916 antenna and component spares

- **SALIENT CHARACTERISTICS**
 - Used with SINGGARS ground radios
 - Six foot mono-pole steel whip antenna with a fiberglass subassembly base
 - Used with tracked vehicles and is end fed
 - Operates over 30-88 MHz Range
 - Range capability of approximately 17 miles in good weather

CECOM Bottom Line: The Soldier

AS-3916 antenna and component spares

- **OBJECTIVE:** Acquisition of AS-3916 and component spares to support replenishment demands (5 NSNs)
- **CONTRACT TYPE:** IDIQ, 3 years
- **ESTIMATED VALUE (Min-Max):** \$5M - \$8M
- **KEY MILESTONES:** RFP: May 99
Award: Jul 99
- **TECHNICAL CONTACT:** Kellie Telson, 732-532-8840
- **ACQUISITION CONTACT:** Ed Schindel, 732-532-1532

CECOM Bottom Line: The Soldier

AN/ARM-186 VOR/ILS/MB Receiver Test Set

CECOM Bottom Line: The Soldier

AN/ARM-186 VOR/ILS/MB Receiver Test Set

- **SALIENT CHARACTERISTICS**

- Used for troubleshooting airborne Very high-frequency OmniRange/Instrument Landing System/Marker Beacon (VOR/ILS/MB) navigation receivers.

CECOM Bottom Line: The Soldier

AN/ARM-186 VOR/ILS/MB Receiver Test Set

- **OBJECTIVE:** Acquisition is to support replenishment requirements.
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$1.75M
- **KEY MILESTONES:** RFP: Oct 99
Award: Jan 00.
- **TECHNICAL CONTACT:** David Savitsky, 732-532-1627
- **ACQUISITION CONTACT:** Barbara Boden, 732-532-5416

CÉCOM Bottom Line: The Soldier

54,000 BTUH ECU

CECOM Bottom Line: The Soldier

54,000 BTUH ECU

- **SALIENT CHARACTERISTICS**

- Required in support of PM Force Provider
- Provide cooling and heating for Force Provider Housing Modules, which accommodate 500+ soldiers each
- Power Required: 208/230V, 3PH, 50/60 Hz
- Cooling Capacity: 54,000 BTUH
- Heating Capacity: 32,000 BTUH
- Operating Temperature: -50° F to +120° F

CECOM Bottom Line: The Soldier

54,000 BTUH ECU

- **OBJECTIVE:** Acquisition of Environmental Control Units.
- **CONTRACT TYPE:** Requirements, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$13M
- **KEY MILESTONES:** RFP: Mar 00
Award: Jun 00
- **TECHNICAL CONTACT:** Rene Acosta, 732-532-4230
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

60,000 BTUH ECU

CECOM Bottom Line: The Soldier

60,000 BTUH ECU

- **SALIENT CHARACTERISTICS**

- Provide heating and cooling to combat, combat support, and combat service support systems
- Power Required: 208V, 3PH, 50/60 Hz
- Cooling Capacity: 60,000 BTUH
- Heating Capacity: 47,000 BTUH
- Operating Temperature: -50° F to +120° F

CECOM Bottom Line: The Soldier

60,000 BTUH ECU

- **OBJECTIVE:** Acquisition of the Vertical Compact ECU is required to fill current authorized shortages.
- **CONTRACT TYPE:** Requirements, 3 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$2M
- **KEY MILESTONES:** RFP: Sep 00
Award: Jan 01
- **TECHNICAL CONTACT:** Rene Acosta, 732-532-4230
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

120,000 BTU/HR Army Space Heater (ASH)

CECOM Bottom Line: The Soldier

120,000 BTU/HR Army Space Heater (ASH)

- **SALIENT CHARACTERISTICS**
 - Delivers clean, heated or vented air through sealed detachable ducts
 - Electrically powered system requiring a maximum of 3kW of external power
 - Mobile, and controlled by remote thermostat
 - Uses both diesel and JP-8 fuel to produce heat
 - Replaces the 250,000 Herman Nelson heaters, which are overage, unsafe, and no longer supportable.

CECOM Bottom Line: The Soldier

120,000 BTU/HR Army Space Heater (ASH)

- **OBJECTIVE:** Procure to fill remaining Army Force Package requirements, plus meet needs of other services and FMS customers
- **CONTRACT TYPE:** Requirements, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$21M
- **KEY MILESTONES:** RFP: Sep 00
Award: Jan 01
- **TECHNICAL CONTACT:** Robert C. Nutter, 703-704-3802
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

350,000 BTU/HR Large Capacity Field Heater (LCFH)

CECOM Bottom Line: The Soldier

350,000 BTU/HR Large Capacity Field Heater (LCFH)

- **SALIENT CHARACTERISTICS**
 - Replaces outdated field heaters which currently supply heated air to personnel and equipment in moderate to extreme cold environmental locations worldwide
 - Self-powered, provides re-circulatory air, and operates on JP-8 and diesel fuels
 - Delivers clean, heated and ventilated air through sealed detachable, flexible ducts
 - It shall have a protective enclosure, be trailer mounted for local movement and positioning, and withstand environmental conditions of arctic use.

CECOM Bottom Line: The Soldier

350,000 BTU/HR Large Capacity Field Heater (LCFH)

- **OBJECTIVE:** Competitive R&D with a follow-on Requirements Contract
- **CONTRACT TYPE:** Requirements, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$10.5M
- **KEY MILESTONES:** RFP: Aug 99
Award: Mar 00
- **TECHNICAL CONTACT:** Robert C. Nutter, 703-704-3802

Improved Environmental Control Units

7,000 BTUH

16,000 BTUH

40,000 BTUH

18,000 BTUH

The environmental control unit family includes horizontal and vertical mounting configurations.

CECOM Bottom Line: The Soldier

Improved Environmental Control Units

- **SALIENT CHARACTERISTICS**
 - 9, 18, 36, & 60K BTUH Cooling Capacity
 - 7, 14, 31, & 47K BTUH Heating Capacity
 - Reduced Noise (65 VS. 74 DBA)
 - Improved Reliability (2300 VS. 800 HR)
 - Increased Operating Range -50° TO 125°F ambient temperature
 - Improved power efficiency

CECOM Bottom Line: The Soldier

Improved Environmental Control Units

- **OBJECTIVE:** Replaces current family of environmental control units with improved version and zero ozone depleting. Initial R&D effort with a follow-on Requirements Contract
- **CONTRACT TYPE:** Requirements, 5 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$170M
- **KEY MILESTONES:** Industry Conference: 24 Aug 99
Note: Notification of details provided in Commerce Business Daily
- **TECHNICAL CONTACT:** Narinder Gulati, 703-704-2017

- **KEY MILESTONES:** RFP: Jun 99
Award: Nov 99
- **TECHNICAL CONTACT:** Don Brockel, 732-532-4948
- **ACQUISITION CONTACT:** Bob Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

Omnicharge II

CECOM Bottom Line: The Soldier

Omnicharge II

- **SALIENT CHARACTERISTICS**

- High Performance Rechargeable Battery System:
 - Increased capacity versions of BB-XX90 and BB-XX47
 - Lightweight, low cost ruck sack charger
 - Performance-based specifications
 - Competitive Best Value RFPs requiring hardware samples

CECOM Bottom Line: The Soldier

Omnicharge II

- **OBJECTIVE:** To acquire High Performance Rechargeable Battery System: High Performance Rechargeable Batteries and Lightweight Charger
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$5M - \$15M
- **KEY MILESTONES:** RFP: Mar 00
Award: Jun 00
- **TECHNICAL CONTACT:** Don Brockel, 732-532-4948
- **ACQUISITION CONTACT:** Bob Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

Aircraft Batteries

CECOM Bottom Line: The Soldier

Aircraft Batteries

- **SALIENT CHARACTERISTICS**

- Omnibus acquisition for several battery types and components:
 - BB-648 cells, BB-716 regular/low capacity cells, BB432B battery at minimum guaranteed quantities
 - Other aircraft batteries, cells, harnesses included at zero minimum quantity
- Consolidated performance specification
- All items are candidates for transfer to DLA under Consumable Item Transfer program

CECOM Bottom Line: The Soldier

Aircraft Batteries

- **OBJECTIVE:** Acquire established design aircraft batteries and components
- **CONTRACT TYPE:** IDIQ, 3 years, 2-step Low Price/Technically Acceptable
- **ESTIMATED VALUE (Min-Max):** \$1M - \$3M
- **KEY MILESTONES:** RFP: Jun 99
Award: Aug 99
- **TECHNICAL CONTACT:** Rich Scarinzi, 732-532-1925
- **ACQUISITION CONTACT:** Bob Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

Rework/Acquisition of Mechanical Scanners

CECOM Bottom Line: The Soldier

Rework/Acquisition of Mechanical Scanners

- **SALIENT CHARACTERISTICS**

- Models MX-10717V(2)/U through V(7)/U
- Manufacture IAW MIL-PRF-49166B (CR), MIL-S-49307 (CR) and applicable specifications sheets
- Acquire new and reconfigure existing mechanical scanners
- These applications specific scanners are used in night vision equipment as part of different versions

CECOM Bottom Line: The Soldier

Rework/Acquisition of Mechanical Scanners

- **OBJECTIVE:** Convert in-stock excess version scanners to current version Mechanical Scanners. Provisions will be present to buy new also.
- **CONTRACT TYPE:** IDIQ, 3 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$450K
- **KEY MILESTONES:** RFP: Jun 99
Award: Aug 99
- **TECHNICAL CONTACT:** Ana Cardinale, 732-427-5821
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

Microphone Linear AH64A

LH - SIDE

RH - SIDE

CECOM Bottom Line: The Soldier

Microphone Linear AH64A

- **SALIENT CHARACTERISTICS**
 - Differential microphone designed with excellent noise cancellation and to reduce "P-pops"
 - Used within masks and mounted on Army and Air Force booms
 - Output level in (M-170/171-3.7 mv)
(M-162/166-18.0 mv)
 - 150 ohms +/- 10% @ 1 kHz impedance

CECOM Bottom Line: The Soldier

Microphone Linear AH64A

- **OBJECTIVE:** Procure spares in support of IHADSS helmet. Minimum quantity of 190 each and maximum of 350 each.
- **CONTRACT TYPE:** Requirements, 5 years
- **ESTIMATED VALUE (Min-Max):** \$24K- \$45K
- **KEY MILESTONES:** RFP: May 99
Award: Sep 99
- **TECHNICAL CONTACT:** Mike Heussner, 732-532-1138
- **ACQUISITION CONTACT:** Vernay Salas, 732-532-1257

CECOM Bottom Line: The Soldier

ID-2103

CECOM Bottom Line: The Soldier

ID-2103

- **SALIENT CHARACTERISTICS**

- ID-2103/A Horizontal Situation Indicator is installed in the AH-1S and CH-47D aircraft
- Receives its inputs from selected installed navigation sets and displays various readouts utilizing a compass card, glideslope printer, course deviation bar, bearing printers, and digital range/course readout.
- Includes heading and course selector knobs.

CECOM Bottom Line: The Soldier

ID-2103

- **OBJECTIVE:** Procure spares in support of ID-2103
- **CONTRACT TYPE:** IDIQ, 5 years
- **ESTIMATED VALUE (Min-Max):** \$30K - \$750K
- **KEY MILESTONES:** RFP: May 99
Award: Sep 99
- **TECHNICAL CONTACT:** Mike Heussner, 732-532-1138
- **ACQUISITION CONTACT:** Vernay Salas, 732-532-1257

9,000 BTU ECU

CECOM Bottom Line: The Soldier

9,000 BTU ECU

- **SALIENT CHARACTERISTICS**

- Provide heating and cooling to combat, combat support, and combat service support systems
- 400hz, 208 volt, 3 phase

CECOM Bottom Line: The Soldier

9,000 BTU ECU

- **OBJECTIVE:** Required to fill current authorized fielding shortages
- **CONTRACT TYPE:** IDIQ, 3 years
- **ESTIMATED VALUE (Min-Max):** TBD - \$1M
- **KEY MILESTONES:** RFP: Dec 00
Award: Apr 01
- **TECHNICAL CONTACT:** Ken Biles, 732-532-4635
- **ACQUISITION CONTACT:** Robert Reagan, 732-532-1530

CECOM Bottom Line: The Soldier

15KW, 30KW, 60KW Generators

CECOM Bottom Line: The Soldier

15KW, 30KW, 60KW Generators

- **SALIENT CHARACTERISTICS**
 - Provide Power for Critical Bare Base Equipment Such As Aircraft, Maintenance Facilities, Hospitals, Personnel Tents, Kitchens
 - Environmental Capability:
 - 25° F (-65° F w/winterizing kit)
 - to 125° F/MSL; 107° @ 5000 FT
 - Four and Six cylinder generators in support of PM Mobile Electric Power

CECOM Bottom Line: The Soldier

15KW, 30KW, 60KW Generators

- **OBJECTIVE:** Procure spares to support the 15KW, 30KW & 60KW Military Standard Generators
- **CONTRACT TYPE:** IDIQ, 5years
- **ESTIMATED VALUE (Min-Max):** \$100K - \$500K
- **KEY MILESTONES:** RFP: Aug 99
Award: Dec 99
- **TECHNICAL CONTACT:** Nick Petouses, 732-532-7122
- **ACQUISITION CONTACT:** Vernay Salas, 732 532-1257

10kw Military Standard Generator

CECOM Bottom Line: The Soldier

10kw Military Standard Generator

- **SALIENT CHARACTERISTICS**
 - 10kw generator, 4 cylinder diesel engine driven, 60hz or 400hz (MEP-003A or MEP-112A)
 - Operable in arctic and NBC clothing, -25°F to 125°F operating temp
 - Skid or trailer mounted
 - 120, 120/240, 120/208 VAC
 - Being displaced by Tactical Quiet Generators (TQGs)

10kw Military Standard Generator

- **OBJECTIVE:** Procure distribution box for the 10kw Military Standard Generator
- **CONTRACT TYPE:** IDIQ, 5years
- **ESTIMATED VALUE (Min-Max):** \$100K - \$300K
- **KEY MILESTONES:** RFP: Oct 99
Award: Feb 00
- **TECHNICAL CONTACT:** Nick Petouses, 732-532-7122
- **ACQUISITION CONTACT:** Vernay Salas 732-532-1257

4.2kw APU

CECOM Bottom Line: The Soldier

4.2kw APU

- **SALIENT CHARACTERISTICS**
 - Generator Set, Gasoline Engine Driven
 - 4.2KW, 150 AMP, 28V, DC
 - Mounted on M577 Carrier, Light Tracked
 - 225 Pounds, Rope Starting, -53.9 and 48.8 Celsius, 36" L, 16" H, 29' W
 - Being displaced by 5KW 28 VDC Auxiliary Power Unit (APU)
 - Model DC 4.2 – ORD/28
 - NSN: 6115-00-857-1397

CECOM Bottom Line: The Soldier

4.2kw Auxiliary Power Unit

- **OBJECTIVE:** Procure spares to support the 4.2kw Auxiliary Power Unit
- **CONTRACT TYPE:** IDIQ, 5years
- **ESTIMATED VALUE (Min-Max):** \$100K - \$500K
- **KEY MILESTONES:** RFP: Aug 00
Award: Dec 00
- **TECHNICAL CONTACT:** Nick Petouses, 732-532-7122

NOTES

BIOGRAPHY

DENNIS J. TURNER

Director

**SOFTWARE ENGINEERING CENTER
UNITED STATES ARMY
COMMUNICATIONS-ELECTRONICS COMMAND
FORT MONMOUTH, NEW JERSEY**

As the Director of the CECOM Software Engineering Center (SEC), Mr. Dennis J. Turner has executive responsibility for the overall mission of the organization, which is the largest of its kind in DOD. The SEC was formed as a result of DA and AMC directed consolidations and its mission encompasses software engineering support across all phases of the life cycle in functional domains from the desktop to the foxhole. Specifically, the SEC and its subordinate organizations, the C4IEW&S Directorate, the Information Systems Software Center (ISSC), the Logistics Systems Software Center (LSSC) and the Industrial Logistics Software Center (ILSC), provides software engineering support for systems in the tactical communications, satellite communications, command and control, avionics/intelligence electronic warfare, intelligence fusion, fire support, sustaining base, and AMC logistics/depot business areas.

The SEC currently has responsibility for the development and support of over 450 types of systems, as well as related work in interoperability and software technology. The SEC resources are distributed across eight principal geographic sites and consist of over 1500 government personnel and approximately 2000 support contractors, and has an annual budget of over \$3000 million. Current organizational priorities include wholesale logistics modernization, horizontal integration of systems across all domains, reducing total cost of automation ownership, and overall integration of the new suborganizations into a cohesive SEC to enable unified Army software support from the desktop to the foxhole.

Before selection to the Army's Senior Executive Service in 1997, Mr. Turner served as the Acting Director of the SEC for three years and before that, he served as the organization's Deputy Director for six years. Before joining the SEC, he served as the Associate Director for Information Processing Technology within the CECOM Center for Command, Control, and Communications Systems. Prior to that he was the Chief of the Software Engineering Division within the Center for Tactical Computer Systems. He has also held a number of industrial positions with Electronic Associates Incorporated, Frequency Engineering Laboratories, and Atlantic Technology Corporation.

Mr. Turner holds Bachelors and Masters degrees in Electronics Engineering from Monmouth University in 1969 and 1973, respectively.

Mr. Turner resides in Middletown, New Jersey with his two sons, Chris, currently in the Air Force, and Jay, a Senior at The College of New Jersey.

NOTES

COL Scipio de Kanter

Deputy Program Executive Officer, Standard Army Management Information Systems

COL de Kanter was named Acting Program Executive Officer on 14 September 1998. He is responsible for the design, development, fielding and sustainment of standard management information systems for the Army.

Prior to his current assignment, COL de Kanter served as the Project Manager, Information Management and Telecommunications Pentagon Renovation. He was responsible for modernizing the information management and telecommunications infrastructure of the Pentagon, the world's largest low-rise office building.

Entering active duty as a second lieutenant in July 1974 COL de Kanter was initially assigned to the 11th Signal Group, Ft. Huachuca, Arizona. There he served with both the 40th Signal Battalion (Construction) and the 526th Signal Company. In June, 1976, he was selected as the aide-de-camp to the Commander, U.S. Army Communications Systems Agency / Project Manager, Defense Communications Systems (Army) Communications Systems, Ft. Monmouth, N.J.

In January 1980 he was assigned as the communications-electronics staff officer for the 1st Battalion, 94th Field Artillery, Fuerth, Germany. In August 1980 he assumed command of Headquarters and Headquarters Battery, 1-94 FA and served as its commander until January, 1983.

In February 1983, COL de Kanter was assigned as a project officer with the Program Executive Office, Networks/U.S. Army Information Systems Management Activity. There he was responsible for the material acquisition management of strategic transmission systems for U.S. forces deployed in Honduras and for the enhancement of the Defense Communications System which supported the CINCPAC, U.S. Southern Command in Panama.

In July 1988 COL de Kanter was assigned to Supreme Headquarters Allied Powers Europe (SHAPE), Casteau, Belgium, where he served as a command, control, communications engineer with the Combat Management Branch, Assistant Chief of Staff for Operations Division.

Returning to Ft. Monmouth, N.J. in July 1991, COL de Kanter was assigned as the Product Manager, Western Hemisphere Transmission Systems for the Program Manager, Army Information Systems. He developed, acquired, tested, improved and fielded transmission systems in support of the Army's portion of the Defense Communications System and Army Transmission Systems in the Western Hemisphere.

Afterwards he served as the Deputy Program Manager for the Defense Information Systems Network Program Office, Defense Information Systems Agency, Arlington, Virginia.

COL de Kanter's decorations include the Defense Superior Service Medal, the Defense Meritorious Service Medal, the Meritorious Service Medal with three oak leaf clusters and the Army Commendation Medal with one oak leaf cluster.

A graduate of the Florida Institute of Technology with a Bachelor of Science degree in Electrical Engineering (1972), COL de Kanter received a Master of Science degree in Electrical Engineering from Fairleigh Dickinson University in 1986. He is a graduate of the U.S. Army War College Senior Service College Fellowship Program at the University of Texas at Austin; the U.S. Army Command and General Staff College; the Armed Forces Staff College; the Defense Systems Management College and the Signal Officer Advance and Basic Courses.

Born on April 30, 1949 in Mexico City, DF, Mexico, COL de Kanter is married to the former Mary Frances Boyd of Middletown, N.J. They have three daughters: Caitlyn Boyd, Christine Alison and Kimberly Ann.

Defense Message System - Army (DMS-Army)

Tactical Message System

DMS-Army replaces the 1960s AUTODIN and Telcom Centers. Tactical Message System provides a deployable Command and Control messaging capability.

Defense Message System - Army (DMS-Army)

Tactical Message System

Characteristics

- Utilizing standardized communication configurations, provides global command and control messaging for the Army, battlefield to sustaining base.
- Implements seamless, reliable writer-to-reader message support.
- DMS-Army Tactical Message System Features:
 - Uses COTS Hardware and Software mounted in military standard vehicle shelters (HMMWV)
 - Provides secure (Secret) and unclassified messaging support
 - Provides secure Command and Control email
 - Replaces aging legacy tactical messaging system(s)

Defense Message System - Army (DMS-Army)

•OBJECTIVE:

Acquire DMS-Army - Tactical Message System

**-72 ea. Tactical Message System (TMS) configurations for
HMMWV mounted shelter integration:**

- Command & Control Messaging and Communications Equipment**
- Integration Services**

•PROPOSED CONTRACT TYPE:

FFP - Multi-Year (FY2000-2003)

•KEY MILESTONES:

RFP release -2QFY00; Contract Award - 3QFY00

•ESTIMATED VALUE: \$40-50 Million

•POC NAMES/TELEPHONE NUMBERS:

-PM DMS: COL Robert Raiford (732) 532-7913

-Acquisition KO: CECOM Acquisition Center-Fort Monmouth

NOTES

BIOGRAPHY

EDWARD T. BAIR
Deputy Program Executive Officer
Intelligence, Electronic Warfare
and Sensors
Fort Monmouth, NJ 07703

As the United States Army's Deputy Program Executive Officer of Intelligence, Electronic Warfare and Sensors (PEO IEW&S), Mr. Bair is responsible for executive leadership, oversight, direction, and total cost of ownership, for Army IEW&S modernization strategies and program capabilities.

Mr. Bair was selected for the Senior Executive Service (SES) in April 1996. He, previously, was the Chief of Business Management for the Army's Program Executive Office for Intelligence and Electronic Warfare Systems (PEO IEW, now Intelligence, Electronic Warfare and Sensors, PEO IEW&S), from September 1987 to July 1993. As the PEO's Business Manager, he oversaw and provided resource, acquisition and program planning guidance and risk assessments for all Army tactical IEW and stand-alone battlefield sensor programs (a \$4 billion business sector), reporting through the Program Executive Officer to the Army Acquisition Executive.

Mr. Bair's prior assignments included Chief of the Procurement Appropriations, U.S. Army Communications-Electronic Command (CECOM), Fort Monmouth, where he was responsible for staff analysis and advocacy of \$3 billion annually of acquisition (investment) resources, spanning the full spectrum of Army tactical communications-electronics and sensors equipment, both major weapons systems and sustaining spares. He also served as Chief of the Customer Control Operations, USACECOM, and as Budget/Program Analyst for weapons systems.

Mr. Bair holds a Masters of Science Degree in National Resources Strategy from the National Defense University, and a Bachelor of Science Degree in Industrial Management from Purdue University. He is also a graduate of the Defense Acquisition University's Senior Acquisition Capstone Course.

Mr. Bair's recognitions include: Distinguished Graduate from National Defense University; ICAF/ADPA Award of Merit for Excellence in Research; MG Theodore Antonelli Award for Industry Study Excellence; U.S. Army Meritorious Civilian Service Award (twice); U.S. Army Field Artillery St. Barbara's Award; USACECOM Comptroller Leadership Award, Secretary of the Army Outstanding Achievements in Material Acquisition Nominee; and #1 Dad Award. Mr. Bair is the author of three publications as well, all addressing Defense Acquisition Reform and the Industrial Base.

A native of Albany, New York, Mr. Bair is married to the former Joann Drahos, of Oakhurst, NJ. They have three children, Melissa, Brett and Brandon.

Range	H/M/L	1.9/1.0/0.55 km	2.2/1.1/0.55 km
Operating time, Full On, w/ Battery, @ 25°C		7.0 hrs	8.0 hrs
Narrow Field of View	H/M/L	3.0°/6.0°/14.0°	4.0/9.0/27.0°
Audio Security	H	10 m	5 m
	M,L	5 m	5 m
Minimum Operating Temp		-37°C	-46°C

L: Light TWS

M: Medium TWS

H: Heavy TWS

DVE Characteristics

Requirement	Threshold	Objective
FOV (in degrees)	20X40	30X180
Detect rocks, trees, ditches, standing personnel	110 meters	156 meters
Cold start to full operation	5 minutes	5 seconds
Silent Watch Mode not transmit audible sounds	beyond 50 m	beyond 5 m
Installation w/ Mission Oriented Protective Posture	MOPP 0 w/I 30 seconds	MOPP IV within 2 min.
Minimum Temperature	-37 C	-51 C

Thermal Omnibus Contract Opportunity

Objective:

Full Rate Production

- 8,000 - 10,000 TWS Units
- 400 - 600 DVE Units
- Logistics Supports
- Options for Systems/Spares
- Above Basic Buy

Contract Type:

FFP, 3 Year Multiyear

Structure:

Split Award (60/40) for TWS

Estimated Qty/value:

\$200-240 M
(Not Including Options)

Image Intensification (I²) Systems OMNIBUS

PVS-14

- AN/PVS-14 (MNVD) Provides Leaders of Combat Infantry Units with a Light Weight, Gen III NV Device for Observation and Command & Control
- Mountable on Small Arms Rail

PVS-7

- AN/PVS-7 (NVG) Provides Soldiers with a Capability to Perform Missions

Image Intensification (I²) Systems OMNIBUS

*AN/AVS-6 Provides Capability for
Night Time Flying Including
Nap-of-the-Earth*

25mm GEN III Tube

*25mm Gen III Tube Provides an
Upgrade to the AN/PVS-4,
AN/VVS-5 and the AN/VVS-2
Sights.*

Image Intensification Systems Characteristics

•AN/PVS-7:

Range: 150 meters - Starlight
Field of View: 40° Circular
Magnification: Unity
Weight 0.7 kg

•AN/PVS-14:

Range: 150 meters - Starlight
Field of View : 40° Circular
Magnification: Unity
Weight: 0.4kg

Image Intensification Systems Characteristics

- AN/AVS-6(V)1A: Resolution: 1.3 cycles/mr
FOV: 40° Circular
Magnification: Unity
Weight: 0.6 kg

- 25mm Tubes:
MX-11620: Upgrade
for AN/PVS-4 & AN/TVS-5
MX-11619: Upgrade for AN/VVS-2

Image Intensification Systems OMNIBUS Contract Opportunity

Objective:

- Full Rate Production**
- Over 22,000 PVS-7/14s
 - Logistics Support
 - Options for Spares and System Including over 9000 AN/AVS-6 and 14,000 25mm Tubes

Contract Type:

**Firm Fixed Price; 3 Year Multiyear
60/40 Split Award**

Key Milestones:

**RFP 4QFY00
Award 2QFY01**

Estimated Value:

\$80-100m not including options

Enhanced Electro-Optic/Infrared EO/IR Sensor for the Tactical UAV (TUAV) Program

Army TUAV

*The Enhanced EO/IR
Sensor Provides the TUAV
System with Extended
Range Performance and
Improve Imager with
Growth to a Laser Target
Designation Capability
(First TRADOC Sensor
Priority for TUAV)*

Enhanced EO/IR Sensor Characteristics

- **Weight 35-50 lbs with Turret Diameter of 9-11 inches**
- **Multi-mode Day/Night, Autotrack / Autosearch Capability**
- **Detect/Recognize APC-sized Targets at 4-5 km Standoff Range**
- **50-80 m Target Location Accuracy**
- **Laser Target Designator/LTD Growth into the EO/IR Payload Sensor**
- **Unit Cost Target (CAIV): <\$120 at 33rd System (w/o LTD)**

Enhanced EO/IR Contract Opportunity

Objective:

FRP for 200-275 Units along with Spares, Training and Support.

Contract Type:

Fixed-Price

Estimated Value:

\$55-70M

Key Milestones:

Synthetic Aperture Radar/Moving Target Indicator (SAR/MTI) Payload for Tactical UAV

Army TUAV

The SAR/MTI Sensor for the TUAV will Allow an all Weather RSTA Capability with Detection of Moving Targets (2nd TRADOC Sensor Priority for TUAV)

SAR/MTI Characteristics

	Threshold	Objective
SAR Payload Requirements		
Range	7 km	15 km
Resolution with Wide Area Search Mode of 1 m	.3 m Spot Mode	.1 m Spot Mode
Target Geolocation Accuracy	80 m	50 m
MTI Payload Requirements		
Probability of Detection @ 14 km*	75%	90%
Range	10 km	20 km
Target Geolocation Accuracy @ 10 km (Objective 20 km)*	80 m	50 m
Field of View Capable of Revisiting a 120° FOV	60 seconds	30 seconds
SAR/MTI Payload Requirement	80 lbs	60 lbs
SAR/MTI Growth Capabilities		
Aided Target Cueing — Aided Target Recognition — Aided Target Identification		
Unit Cost for Targets	\$450K	\$350K

* For a 10m²-sized target

** Multi-Mission Common Modular

SAR/MTI Contract Opportunity

Objective: An Engineering & Manufacturing Development (EMD) Contract Phase to Facilitate Transition of the CR-TUAV SAR/MTI Capability to Production.

Contract Type: Competitive Award

Estimated Value: \$5.5 M

FUTURE

NOW

APBI Left 30-Apr-99

*The Division's Principal
Signals Intelligence
(SIGINT) and Electronic
Warfare (EW) System That
Gives a Comprehensive
Near-Real-Time Picture of
Electronic Emitters On the
Battlefield.*

*Consists of : Prophet Air,
Prophet Control, and
Prophet Ground.*

Prophet Air

Provides the Division Commander with a Deep Looking Platform Capable of Detecting, Identifying and Locating Radio Frequency (RF) Emitters Throughout the Area of Operations. Prophet Air Will Also Have Electronic Attack Capabilities.

Remotely Controls the Receivers on the Prophet Air Platforms, Tasks the Prophet Ground Sensors, and Provides Electronic Mapping of the Battlefield to the All Source Analysis System (ASAS).

Prophet Ground

Identifies General Lines of Bearing, and Provides Exploitation of Single Channel, PTT Unencrypted Tactical Voice Signals. Provide Electronic Attack Capabilities. Primarily a Force Protection Asset (Provides the Soldier an Ability to Detect and Assess Possible Adversarial RF Threats and Respond Appropriately.)

Prophet Air Characteristics

- **Provide Detection, Identification, Locational and Tracking Information on RF Emitters to Prophet Control for Electronic Mapping**
- **Identify Presence and Location of GPS Interface to Prophet control**
- **Removable Electronic Attack Capability (Quick IIB Equivalent)**
- **All Electronic Warfare/Attack Equipment Remotely Controlled by Prophet Control**

Prophet Control Characteristics

- **Electronic Mapping (Using Data from Prophet Air)**
- **Exchange Standard Message Reports and Provide Near-Real-Time Electronic Mapping Graphical Information to All Source Analysis System**
- **Remote Control of Electronic Warfare/Attack Equipment on Prophet Air**
- **Task Prophet Ground Sensors**
- **Configured for Split Based, Force Projection, Displacement (e.g., Hot Jump), and/or OTM Operations**
- **Maintain the Collateral SIGINT Product Library**

Prophet Air/Control Contract Opportunity

Objective: 6 Year Effort for EMD and Fabrication of Prophet Air (5) and Prophet Control (1) Prototype Systems to be used for IOT&E Testing

Contract Type: Competitive, CPFF

Estimated Value: \$270 - \$280M

Key Milestones: 4Q FY99: RFP Release
Contract Award: 3Q FY00

Aerial Common Sensor

Description

Aerial Common Sensor Will Be a Multi-Function System Which Will Satisfy the Army's Critical Need for a Worldwide, Self-Deployable, Airborne, Reconnaissance, Intelligence, Surveillance, and Target Acquisition Capability.

Aerial Common Sensor System Characteristics

- Provide a Design for a Multi-Intelligence Airborne Intelligence, Surveillance, and Reconnaissance System in a Three Phased Approach:
 - Concept Development (M&S)
 - Engineering Manufacturing and Development
 - Production and Deployment
- Non-Developmental Items, Off-the-Shelf Solutions are Preferred

- **Signals Intelligence Sensors**
 - Communications Intelligence Sensors (Low-Band Subsystem Technologies)
 - Electronic Intelligence Sensor (High-Band Subsystem Technologies)
- **Imagery Intelligence Sensors**
 - Electro-Optical Sensors
 - Infrared Sensors
 - Synthetic Aperture Radar
 - Moving Target Indicator
- **Future Growth Sensors**
 - Hyper Spectral Imaging Sensors
 - Foliage Penetration Radar
 - Masked Target Sensor
 - Measurement and Signatures Intelligence Sensors

ACS Contract Opportunity

Objective:

Goal for Multiple (2 or more) Contractor Consortia to Provide Modeling and Simulation Based Designs for the Aerial Common Sensor System Integration. Down Select Follow-on for EMD and Production Contracts

Contract Types:

Best Value Award Emphasis on Total LCC (M&S & EMD)
Cost Plus Fixed Fee (Phase I & II)
Firm Fixed Price (Production)

Estimated Value:

~\$2 Billion (All Phases) Through 2014

NOTES

GUEST SPEAKER

LTG JAMES M. LINK

**DEPUTY COMMANDING GENERAL
U.S. ARMY MATERIEL COMMAND**

Lieutenant General James M. Link

Deputy Commanding General

Lieutenant General James M. Link became the Deputy Commanding General, U.S. Army Materiel Command on August 3, 1998.

A veteran of Vietnam and Desert Storm, General Link has held numerous command and staff positions leading to his current assignment. Most recently, he was Chief of Staff of U.S. Army Materiel Command. Prior to that, he served as Commander, U.S. Army Missile Command, Redstone Arsenal, AL. (now Aviation and Missile Command) from June 1994 to July 1997 and Deputy Commander, 21st Theater Army Area Command, U.S. Army Europe and Seventh Army, from July 1993 to June 1994. From January 1992 to June 1993, he served as the MICOM Deputy Commanding General. He also served at MICOM from 1986 to 1989 as Director of Materiel Management Directorate in what is now the Integrated Materiel Management Center, and served as the Acting Director of this organization for eight months.

General Link was born in Columbus, Ohio, but grew up in North Carolina. He was commissioned a Second Lieutenant in the U.S. Army Ordnance Corps in 1967 after completing undergraduate work at Methodist College and graduate work at the University of North Carolina at Chapel Hill. He also has a master's degree in business administration from the University of Tennessee. His military education includes the Army Command and General Staff College and the Industrial College of the Armed Forces. He holds honorary doctorate degrees from Methodist College and the University of Alabama, Huntsville.

He has held various logistical and staff assignments. While Commander, 16th Corps Support Group, V Corps, Hanau, Germany, he deployed to Southwest Asia in support of VII Corps during Operations Desert Shield and Storm. He was Deputy for Training Developments, U.S. Army

Combined Arms Support Command; Chief, Ordnance Assignment Branch, MILPERCEN; Commander, 194th Maintenance Battalion, Camp Humphreys, Korea; and Department of the Army Staff Officer, Office of the Deputy Chief of Staff, Logistics. In Vietnam, he served as Company Commander and Technical Supply Officer, 173rd Airborne Brigade.

General Link's awards and decorations include: Distinguished Service Medal, Legion of Merit (with 3 Oak Leaf Clusters), Bronze Star Medal (with 2 Oak Leaf Clusters), Meritorious Service Medal (with 3 Oak Leaf Clusters), Army Commendation Medal (with Oak Leaf Cluster), Army Achievement Medal, Senior Army Parachute Badge, and the Army General Staff Identification Badge.

NOTES

DAVID W. KEETLEY
Director, Space & Terrestrial Communications
Research, Development and Engineering Center
U. S. Army Communications-Electronics Command
Fort Monmouth, New Jersey

Mr. David W. Keetley was appointed as Director for Space and Terrestrial Communications, U.S. Army Communications-Electronics Command (CECOM), Research, Development and Engineering Center (RDEC), on 17 August 1997. He is the focal point for providing the technology, system and network integration and engineering design to implement tactical communications systems for America's warfighters. Mr. Keetley is responsible for the research, development, testing and engineering support for initial acquisition, system integration, first fielding and support of space and terrestrial communications and information security networks and systems for use by the Army, Joint Services and other Government agencies.

He received his Bachelor of Science degree in 1969 in Electrical Engineering from Southeastern Massachusetts University, now the University of Massachusetts - Dartmouth. Mr. Keetley also received a Master of Science degree in Management Science from Fairleigh Dickinson University in 1974.

Prior to his current assignment as the Director for Space and Terrestrial Communications, Mr. Keetley was the Director of the Army Systems Engineering Office at Fort Monmouth, NJ, since its formation in November 1994. He was responsible for supporting the Army Systems Engineer in developing, maintaining, and implementing the Army Technical Architecture and evaluating system requirements and designs for architecture compliance and proper application of standards.

Previous technical and managerial assignments at Fort Monmouth include: Chief of the Systems Engineering Office in the Program Executive Office for Communications Systems from 1992-1994; Deputy Project Manager for Systems and Engineering; and Chief Engineer for the Mobile Subscriber Equipment program from 1988-1992 where he was responsible for the system design, test, production, field operation and product improvement.

He began his Government career with the U.S. Army Electronics Command in 1969 and held various project engineer and technical management positions in the telecommunications field until accepting a project management position in 1983 with PM Army Tactical Communications Systems.

A native of Swansea, Massachusetts, Mr. Keetley now resides in West Long Branch, New Jersey with his wife, Janice. They have two daughters, Jennifer and Meredith.

Tactical C2 Protect

CECOM Bottom Line: THE SOLDIER

Tactical C2 Protect

- **Key areas of investigation are:**
 - **Network access control**
 - **Intrusion detection and response**
 - **Host level improvements**
 - **Automated Security Management**
- **Solutions must effectively protect against, detect, and respond to information warfare attacks**
- **Solutions must be integrated and proven within the bandwidth and connectivity constraints of the Army's tactical networks**

CECOM Bottom Line: THE SOLDIER

Tactical C2 Protect

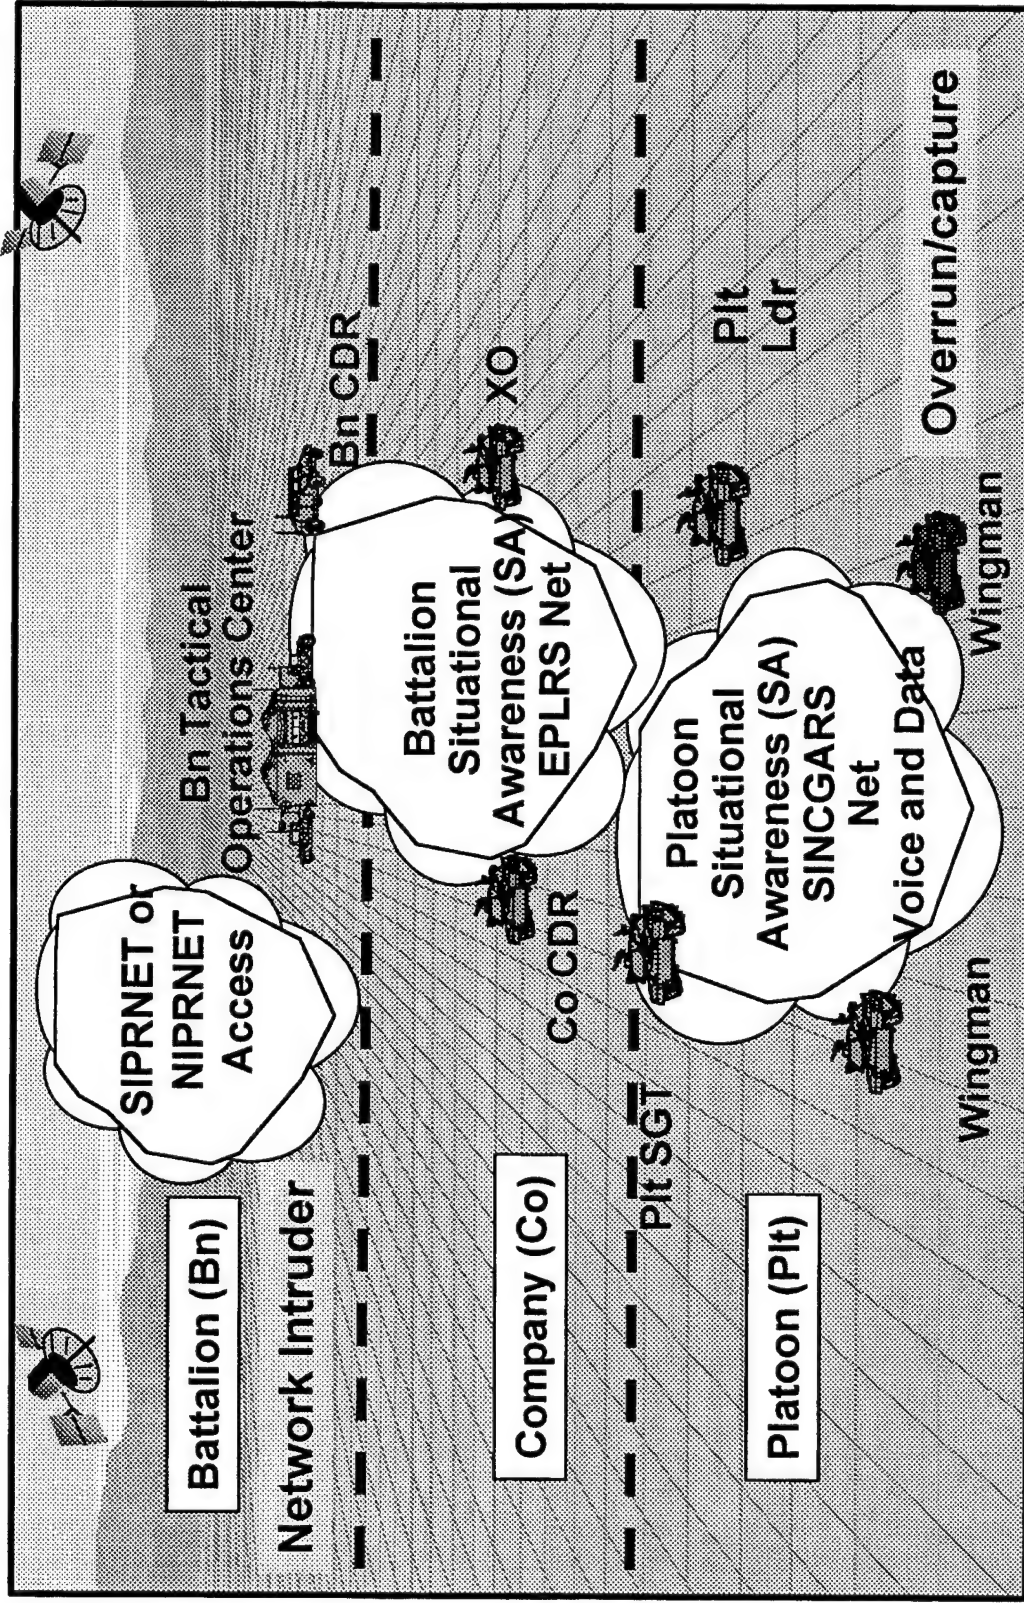

- **OBJECTIVE:** Develop, integrate and validate network access control, intrusion detection/response, host level improvements, and security management that will secure the systems and networks of the First Digitized Division (FDD) and beyond.
- **CONTRACT TYPE:** Combination of Other Transactions, CPFF (Dual Use, BAA)
- **ESTIMATED VALUE:** \$4.0 - \$6.0M, 3 Year Effort
- **KEY MILESTONES:**
 - Awards - Multiple, 2Q each FY FY00-02
 - NTE \$800K per contract, per year
- **TECHNICAL CONTACT:** Pete Van Syckle (732) 427-4647
- **ACQUISITION CONTACT:** Virginia Knight (732) 532-4348

CECOM Bottom Line: THE SOLDIER

C2 PROTECT VULNERABILITY ANALYSIS

Tactical Internet Exploitation Scenarios

R - Router
INC - Tactical Router

CECOM Bottom Line: THE SOLDIER

C2 Protect Vulnerability Analysis

- Development of hardware and software tool kit to perform vulnerability assessment of tactical C4I systems
- Tools will support red teaming; accessing protected computers and network components, corruption of data, and disruption of network performance.
- Tools must support multiple network architectures with varying bandwidth

C2 Protect Vulnerability Analysis

- **OBJECTIVE:** Development of assessment tools for penetration testing and vulnerability analysis of Army tactical C4I systems.
- **CONTRACT TYPE:** COST PLUS FIXED FEE (BAA)
- **ESTIMATED VALUE:** \$2 - 3M
- **KEY MILESTONES:**

BAA Award	3Qtr FY00
BAA Award	1Qtr FY01
- **TECHNICAL CONTACT:** Vince Simpson (732) 532-3793
- **ACQUISITION CONTACT:** Virginia Knight (732) 532-4348

Soldier's Antenna, Body Borne

- Conformal body borne that operates while soldier is standing or prone
- Communicate in VHF/UHF Bands
- Address cosite effects with other Soldier Systems
- Power efficiency +8dB → +10dB

Soldier's Antenna, Body Borne

CECOM Bottom Line: THE SOLDIER

Soldier's Antenna, Body Borne

- **OBJECTIVE:** Develop and Demonstrate a VHF/UHF body borne antenna for the soldier that has the same or greater power efficiency and range of legacy manpack antennas.
- **CONTRACT TYPE:** COST PLUS FIXED FEE (BAA)
- **ESTIMATED VALUE:** \$350-750K
- **KEY MILESTONES:**
 - Award & Alternate Designs 1Qtr FY00
 - Antenna Prototype 3Qtr FY00
 - Optimize Antenna Design 1Qtr FY01
 - Demonstrate Antenna 3Qtr FY01
 - Deliver Antenna 4Qtr FY01
- **TECHNICAL CONTACT:** V. J. Procopio, 732-427-2077
- **ACQUISITION CONTACT:** Virginia Knight 732-532-4348

CECOM Bottom Line: THE SOLDIER

Vehicle Mounted Forward Looking Mine Detection

Critical Technologies:

Forward Looking Sensors:

- Uncooled FLIR
- GPR w/SAR processing

Operational Benefits:

- 10X improvement over VMMD ATD vehicle speeds
- 25X improvement over current route clearance mission speeds

Physically marked mine

SAR/IR combination

Mixture of surface and buried mines

• Forward Looking Field of View

3 x (7 - 30) m

Provides a new standoff mine detection capability to enable on-route clearance mission times << 18 hrs for 20 km

CECOM Bottom Line: THE SOLDIER

Vehicle Mounted Forward Looking Mine Detection

- Investigate, develop, and field-evaluate sensor technologies for detection of anti-tank mines in front of host vehicle
- Demonstrate detection algorithms for forward looking mine detection
- Develop techniques for correlating data imagery and detection icons to actual mine locations in front of vehicle

Vehicle Mounted Forward Looking Mine Detection

- **OBJECTIVE:** Enhance the operational tempo for vehicular-based mine detection systems while providing increased survivability to the soldier through a forward-looking sensor/detection algorithm development program
- **CONTRACT TYPE:** Cost Plus Fixed Fee
- **ESTIMATED VALUE:** \$7-10M
- **KEY MILESTONES:**

Award date	2QFY00
Brassboard Fabrication	4QFY02

FRANK D. JENIA, Ph.D.

**Deputy/Technical Director
U.S. Army Information Systems Engineering Command
Fort Huachuca, Arizona 85613-5300**

**520-538-8792 Facsimile 520-538-7614
jeniaf@emh1.hqisec.army.mil**

Dr. Jenia is the Deputy/Technical Director of the U.S. Army Information Systems Engineering Command (USAISEC) at Fort Huachuca, Arizona. He is a senior interdisciplinary computer scientist and electronic engineer.

Dr. Jenia earned a Master of Arts Degree in Management and Communications from the University of Northern Colorado in 1980 and a Master of Science Degree in Electrical-Computer Engineering from the University of Colorado in 1985. He earned his Doctor of Philosophy Degree in Computer Information Systems in 1993 with his dissertation titled "Migrating the Army to an Open-Systems Environment."

As the senior technical civilian in USAISEC, Dr. Jenia provides executive-level, technical direction and leadership for a world-wide engineering organization performing information systems (automation and communications) design, development, engineering, installation, quality assurance, and life-cycle technical support for Department of Defense and U.S. Army programs.

Dr. Jenia began his career as a software engineer in 1970 for the U.S. Army and he has worked in and with all the global organizations in the U.S. Army's Information Systems Engineering Command for the past two and a half decades. In over 25 years of active civilian service, Dr. Jenia has held a series of key senior civilian positions. He is the recipient of numerous distinguished medals and awards from both the Department of Defense as well as the local community.

Dr. Jenia and his wife, Margaret, live in Sierra Vista, Arizona, and have three children: Jill, Justin, and Joy.

BIOGRAPHY

ROBERT R. LEHNES
DEPUTY PROGRAM EXECUTIVE OFFICER
COMMUNICATIONS SYSTEMS
PEO COMMAND, CONTROL AND
COMMUNICATIONS
SYSTEMS
FORT MONMOUTH, NEW JERSEY

As Deputy Program Executive Officer, Communications Systems, Mr. Robert R. Lehnese is responsible for executive oversight, planning, resourcing, guidance and direction for assigned communications systems and the subordinate Project Managers that execute those programs. Mr. Lehnese is responsible for the integration of technical and programmatic objectives and the management of implementations to ensure milestones and overall goals and objectives are met.

Mr. Lehnese was selected for Senior Executive Service (SES) in 1 September 1996. He was previously Chief of Horizontal Technology Integration Office for Command, Control and Communications Systems. As the PEO's senior engineer he oversaw the systems engineering and integration as well as technology integration efforts into the Army's command, control, and communications systems.

Mr. Lehnese's previous assignments included Chief of Operations for PEO Communications Systems, where he was responsible for management oversight, acquisition management policy, guidance and direction of a two billion dollar annual budget for over 100 acquisition programs. He also served as the Chief of Systems Engineering for PEO Communications Systems.

Mr. Lehnese holds a Bachelor of Science Degree in Electrical Engineering from the Newark College of Engineering, a Masters of Science in Management Science and Computer Science from Fairleigh Dickinson University and a Masters of Science Degree in National Resource Strategy from the National Defense University. He is also a graduate of the Program Management Course from the Defense Systems Management College, the

Industrial College of the Armed Forces, and the Senior Acquisition Course from the Defense Acquisition University.

Mr. Lehnese's recognitions include: Magna Cum Laude from Fairleigh Dickinson University; Commander's Award for Civilian Service; numerous performance awards; and Vice President Gore's "Hammer Award" for Acquisition Improvement Excellence. Mr. Lehnese is the author of numerous technical papers dealing with tactical communications and integrated system control and

has published articles dealing with defense acquisition management.

A native of New Jersey, Mr. Lehnese resides in Ocean Grove with his wife Joanne. Their son, Russell, is a cadet at the Massachusetts Maritime Academy, Buzzards Bay, Massachusetts.

NOTES

ACTING DEPUTY DIRECTOR

MICHAEL ALBARELLI

Since joining the CECOM System Management Center (SMC) in June 1998, Mr. Albarelli has held several key management positions. As of February 1999, he has been assigned as the Acting Deputy Director of SMC. Prior to this assignment, he was assigned as the SMC Technical Director and Director of the Horizontal Technology Integration Office. In these technical management positions, he was responsible for technical oversight and guidance for Y2K, information technology and assurance, business process re-engineering, interoperability, and system engineering activities within the organization.

Before joining the CECOM SMC, Mr. Albarelli served as Chief of the System Engineering Office of the Program Executive Office, Command, Control and Communications (C3S). At the PEO, Mr. Albarelli was responsible for the system engineering and integration of the Army Tactical Command and Control System, as well as system engineering oversight of the Maneuver Control System (MCS), Army Field Artillery Tactical Data System (AFATDS), All Source Analysis System (ASAS), Air Defense Command and Control System (ADCCS) and the Combat Service Support Control System (CSSCS).

Prior to the PEO C3S assignment, Mr. Albarelli served as Deputy Project Manager for Electronic Warfare/RSTA, where he was responsible for the administration, management, development, and fielding of the Guardrail Common Sensor, REMBASS, Commanders Tactical Terminal, STINGRAY, Meteorological Data System, Remote Relay, and TEAMPACK.

Mr. Albarelli holds a B.S. IN Electrical Engineering and an M.S. in Management Science, both from Fairleigh Dickinson University. He also holds an M.S. in National Resource Strategy from the Industrial College of the Armed Forces (ICAF), Fort McNair, Washington DC.

Replacement DSCS Frequency Division Multiple Access Control Subsystem (RDFCS)

- **Orderwires control**
- **Multi-band (X, C, Ku, Ka) capable (Military & Commercial)**
- **Maintain optimal allocation of satellite transponder power and bandwidth**
- **Control wider range of terminals operating over increased bandwidths**

Replacement DSCS Frequency Division Multiple Access Control Subsystem (RDFCS)

- **OBJECTIVE:** Replace the current DFCS with an open architecture COTS system, based on MIL-STD 188-166/7, that includes orderwires control
- **CONTRACT TYPE:** Firm Fixed Price (FFP)
- **ESTIMATED VALUE:** \$12-22M
- **KEY MILESTONES:**
 - Request for Proposal released - 1QFY00
 - Contract Award - 2QFY00
- **TECHNICAL CONTACT:** Jay Hicks (732) 532-9728 x 5824
- **ACQUISITION CONTACT:** Kathy Rizzo (732) 532-5798

DSCS Spectrum Management System (DSMS)

- **Monitor, measure, analyze selected RF carriers / spectrum bands**
- **Compare downlink performance vs. network scenario**
- **Characterize known / unauthorized accesses and provide alarms**
- **Provide Advanced Signal Analysis**

DSCS Spectrum Management System (DSMS)

- **OBJECTIVE:** Replace current Defense Satellite Communication System (DSCS) Automatic Spectrum Analyzer with a Digital Signal Processing based spectrum monitoring system that extends the frequency range (X, C, Ku, Ka) to allow monitoring of commercial / future satellite systems
- **CONTRACT TYPE:** Firm Fixed Price (FFP)
- **ESTIMATED VALUE:** \$4-7M
- **KEY MILESTONES:**
 - Request for Proposal released - 1QFY01
 - Contract Award - 2QFY01
- **TECHNICAL CONTACT:** Jay Hicks (732) 532-9728 x 5824
- **ACQUISITION CONTACT:** Kathy Rizzo (732) 532-5798

Replacement Radio Frequency Interface System (RRFIS)

- **Processor controlled RF switching**
- **Increased number of ports**
- **Potential use of fiber optics**

[REDACTED]

Replacement Radio Frequency Interface System (RRFIS)

- **OBJECTIVE:** Replace the current RF Switching equipment in the DSCS Operations Centers with state of the art technology
- **CONTRACT TYPE:** Firm Fixed Price (FFP)
- **ESTIMATED VALUE:** \$10-22M
- **KEY MILESTONES:**
 - Request for Proposal - 1QFY04
 - Contract Award - 2QFY04
- **TECHNICAL CONTACT:** Jay Hicks (732) 532-9728 x5824
- **ACQUISITION CONTACT:** Kathy Rizzo (732) 532-5798

MAXI-MINIS AND DATABASES-1

- **PERTINENT SALIENT CHARACTERISTICS:**

- 1 Base Year Ordering, 4 - 1 Year Options
- State of the Art Platforms
 - + Hardware
 - + Software
 - = Multi-User Operating System
 - = Multiple Database Systems
 - + Information Technology (IT) Services
 - = System, Network, Engineering Services
 - = Database, Network Administration
 - = Site Survey, Installation, Outside Plant Support

MAXI-MINIS AND DATABASES-1

- **OBJECTIVE:**
 - Follow-on to Super Minicomputer Contract and Database Machine Contracts.
 - To provide a vehicle for medium to large size computers and database machines to DoD users.
 - Software shall comply with Open System Standards.
- **CONTRACT TYPE:** FFP, ID/IQ, Best Value
- **ESTIMATED VALUE:** \$250-\$350M
- **KEY MILESTONES:** RFP - 1QFY00, Award - 2QFY00
- **TECHNICAL CONTACT:** Bob Germond (732) 427-6789
- **ACQUISITION CONTACT:** Ms. Celeste Boucher
(732) 532-4375

Mobile Detection Assessment Response System-Exterior

- Operates in general storage yards, arsenals, petroleum storage areas, airfields, rail yards and port facilities
- Randomly navigates exterior perimeters and roadways, while performing intrusion detection
- Operates and communicates at least 300 meters from a remote area control unit or signal relay device
- Verifies the status of barriers and products within a six meter line-of-sight range
- Achieves a required minimum response speed of 15 kilometers per hour with a goal of 30 kilometers per hour

Mobile Detection Assessment Response System-Exterior

- **OBJECTIVE:** Complete Engineering and Manufacturing Development and begin Production of MDARS-E to protect external DoD storage/operational facilities
- **CONTRACT TYPE:** Cost Plus Incentive Fee/Fixed Price Incentive
- **ESTIMATED VALUE:** \$14 to \$30 Million
- **KEY MILESTONES:** RFP release, 4QFY00, Contract Award 1QFY01
- **TECHNICAL CONTACT:** Mr. Jerry Edwards, Office of the Product Manager, Physical Security Equipment, (703) 704-2412
- **ACQUISITION CONTACT:** Mr. Richard Sturgis - (703) 325-6068

Integrated Commercial Intrusion Detection System - III (ICIDS-III)

- Consists of a family of commercially available reliable, state of the art, standardized, intrusion detection equipment using open systems architecture
- System includes interior and exterior sensors, closed circuit television, and entry control equipment
- Provides early warning of compromise or attempted compromise of a protected area
- Replaced aging and obsolete equipment and upgrades installation security to required levels without an increase in manpower
- Provides annunciator which integrates existing IDS and provides Contractor Logistics Support for existing ICIDS installations

Integrated Commercial Intrusion Detection System - III (ICIDS-III)

- **OBJECTIVE:** Continue Production and Fielding of ICIDS to replace aging and obsolete IDS equipment
- **CONTRACT TYPE:** Indefinite Delivery, Indefinite Quantity ID/IQ
- **ESTIMATED VALUE:** \$60-\$65M
- **KEY MILESTONES:** RFP release, 4QFY01, Contract Award, 3QFY02
- **TECHNICAL CONTACT:** Mr. Thomas C. Endler, Office of the Product Manager, Physical Security Equipment (703) 704-2413
- **ACQUISITION CONTACT:** Mr. Richard Sturgis - (703) 325-6068

NOTES

LAWRENCE A. SMITH
DEPUTY DIRECTOR, PLANNING, ANALYSIS AND INTEGRATION

Lawrence A. Smith was born in Dunkirk, New York on May 5, 1953. He received a bachelor of business administration degree from Ohio University, Athens, Ohio in June 1975.

He is currently serving as Deputy Director, Planning Analysis and Integration (PA&I). His responsibilities include: managing overall staff coordination for Command-wide management matters, strategic long-range planing, command mission resource planning, systems analysis support, staff direction of operational issues crossing organizational boundaries, program management of the DoD (less Air Force) MITRE contract support and operation of the Emergency Operations Center.

Prior to his current responsibilities, Mr. Smith served in a number of management analyst positions dealing with Commercial Activities and organization structure issues within the Command until his selection as the Deputy Director, Program Analysis and Evaluation (an antecedent of PA&I) in February 1991.

Mr. Smith is a member of the American Society of Military Comptrollers and the Association of the U.S. Army. A graduate of the Army Management Staff College in 1990, Mr. Smith has received the Superior Civilian Service Award, Commander's Award for Civilian Service and the Achievement Medal for Civilian Service and was selected the CECOM Civilian Employee of the Year in 1989.
